

# Kai Moana

(Chorus)

*Kai Moana food from the sea  
Kai Moana to feed the family  
Fish for the future and there will always be more  
Kai Moana for you and me*

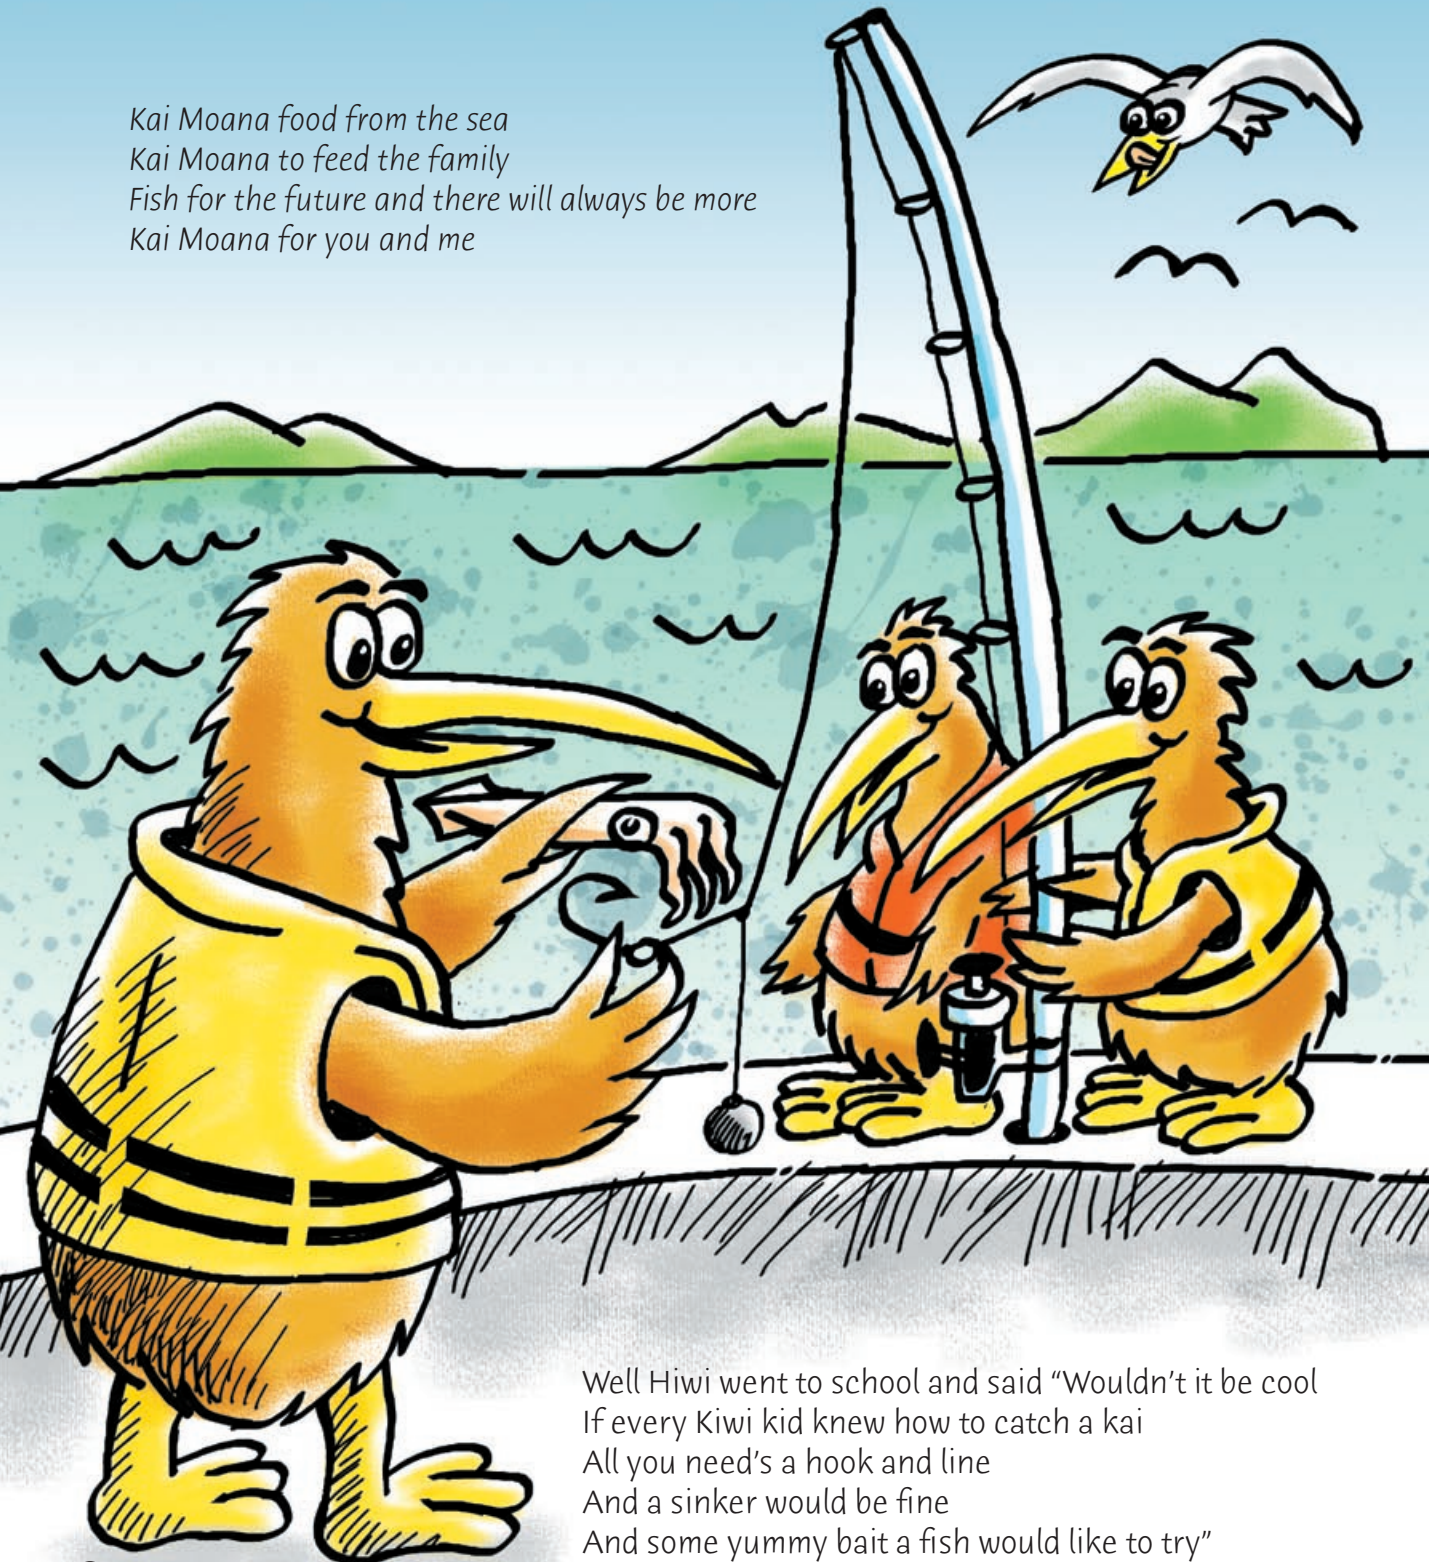

Well Hiwi and his mate said "Wouldn't it be great  
If we all go fishing with the guys  
We'll catch a snapper for the cooler  
But don't forget the ruler  
To check if the snapper's undersize that's wise"

*Kai Moana food from the sea  
Kai Moana to feed the family  
Fish for the future and there will always be more  
Kai Moana for you and me*

If the snapper is too wee it will never grow to be  
A mummy or a daddy who can breed  
We'll be sure to let him go  
So he's got a chance to grow  
We can always catch his uncle for a feed

*Kai Moana food from the sea  
Kai Moana to feed the family  
Fish for the future and there will always be more  
Kai Moana for you and me*

Well Hiwi went to school and said "Wouldn't it be cool  
If every Kiwi kid knew how to catch a kai  
All you need's a hook and line  
And a sinker would be fine  
And some yummy bait a fish would like to try"

(Chorus)

So if you want to catch some grub kids, join a fishing club  
Coz there's lots of fun for every girl and boy  
Here's some really cool advice  
Don't forget to take some ice  
Keep your kai moana nice and enjoy – Yum!

(Chorus)

If you're fishing from a boat and you want to keep afloat  
Teach some water safety lessons to your dad  
Say "wear a life jacket, don't forget to pack it  
If you wind up in the water you'll be glad"  
Did you let the family know where the boat is going to go  
And the time that you expect you will return  
Take great care and a beacon and a flare  
Kids you could save a life if you learn about...

(Chorus)
